International Summer School for Health and Medical Students

Queensland University of Technology

Monday 20 July – Friday 7 August 2015

The three-week professional experience provides students with the opportunity to examine relevant aspects of the Australian health and medical systems.

Students will visit health sector organisations, meet Australian health officials, and participate in lectures on contemporary healthcare challenges and issues.

During the program, students will also participate in weekend activities to experience the Australian culture, language and environment.

Students will improve their health professional English through formal interactive classroom activities and informal exchanges with Australian students.

Fee AUD$3,245 (includes tuition, accommodation, local transportation, cultural activities and social events)

Contact kari.melvin@qut.edu.au for more information

Learn, Enjoy, Experience Brisbane AUSTRALIA

I love this exchange program very much. 2012 participant.
The 2015 International Summer School for health and medical students is an academic and cultural programme for undergraduate (or recent graduate) students from China.

The International Summer School will provide students with understanding and insight into the Australian health and medical systems through observation, lectures, and practice; and will improve their health professional English.

Benefits for students:
- A professional development opportunity to enhance CV;
- Intensive study at a top Australian university;
- Interaction with world-leading health and medical researchers;
- Experiencing Australia’s culture and environment;
- Making new friends with Australian students;
- Developing a strong network of professional contacts; and
- Enjoying an exciting cultural and social program.
